

bonefishing capital of the bahamas

find magical discoveries in the world's most beautiful diving and serene fishing grounds

ANDROS AT A GLANCE

Location: 30 miles west of Nassau

Island Info: The largest Bahamian island, 104 miles long by 40 miles wide

Population: 8,180

Tourist Info: BOIPB (800) 688-4652; Andros Tourist Office (242) 368-2286

Known For: Beaches, snorkeling and bonefishing

Andros is actually a series of islands and cays connected by a series of canals called bights. It's the largest "island" in The Bahamas and attracts divers and fishing enthusiasts, as well as casual sightseers. Andros is one of the biggest unexplored tracts of land in the Western Hemisphere. Mostly flat, its 2,300 square miles are riddled with lakes and creeks, and most of the local residents live along the shore. The main villages are Nicholl's Town, Andros Town, and Congo Town; all accessible by boat and plane connections from Nassau.

The world's third-largest barrier reef lies off the coast, and divers come from all over the world to explore it. The reef plunges 6,000 feet to a narrow drop-off known as the Tongue of the Ocean. The island also offers a vast array of Blue Holes for the experienced diver. Bonefishing here is among the best on earth, and Andros is also known for its world-class marlin and bluefin tuna fishing.
